SUMMARY

Frontend Developer with **5+ years** of experience building scalable, high-performance web applications. Expertise in **JavaScript (ES6+)**, **React.js**, **Next.js**, and **TypeScript**, with strong proficiency in **RESTful APIs** and modern **UI architecture**. Experienced in performance optimization, secure authentication (**JWT**), and developing responsive, user-centric interfaces in **Agile** environments.

EDUCATION

Master of Science in Computer Science Aug 2021 - May 2023
State University of New York at Binghamton

Bachelor of Engineering in Information Technology Aug 2014 - Jul 2018
K.J. Somaiya Institute of Engineering and Information Technology

TECHNICAL SKILLS

Languages:	JavaScript(ES6+), TypeScript, Python, HTML5, CSS3, SASS
Frontend:	React.js, Next.js, Angular, Redux, Tailwind CSS, Bootstrap, jQuery
Backend:	Node.js, Express.js, Flask, RESTful APIs, Microservices
Databases:	MongoDB, MySQL, PostgreSQL, Firebase, NoSQL
Tools & Platforms:	Docker, AWS, GCP, Git, Webpack, Linux,Figma, Postman, JIRA, ApexCharts, Responsive Design, Agile, Scrum, SDLC

CERTIFICATIONS

- Google UX Design Specialization - Google May 2024
- Full Stack Web Development with React - Coursera Jan 2023
- Full Stack Web Development with Angular - Coursera Feb 2019

EXPERIENCE

Software Developer Jun 2025 - Present
Softcell Technologies Global Pvt Ltd *Mumbai*

- Engineered responsive, scalable frontend applications using **Next.js**, **React.js**, and **TypeScript**.
- Constructed modern UI components with **Tailwind CSS**, **Ant Design**, **ApexCharts**, and **ECharts** for data visualization and performance optimization.
- Streamlined user session management by implementing stateless **JWT** authentication, reducing server-side overhead while maintaining granular access control for diverse user personas.
- Used **Docker** and **Git** to build, deploy, and manage code efficiently across environments.
- Contributed to a **multi-cloud** management platform by designing interactive dashboards and user interfaces.
- Created an internal **Jira**-like application to streamline task tracking and cross-team collaboration.
- Collaborated with backend developers and designers in **Agile** sprints, ensuring timely, high-quality feature delivery.

Software Developer Aug 2023 - Aug 2024
Binghamton University *New York, USA*

- Architected an online attendance and reporting platform using **React.js**, **Figma**, **Flask**, **MongoDB** and **Google Cloud Platform (GCP)**.
- Led user research and usability testing to identify UX pain points, enhancing interaction flow and reducing manual tasks.
- Automated tracking processes, improving data accuracy and increasing efficiency by **40%**.
- Pioneered the use of **RESTful APIs** to create a fast and secure bridge for all our application data.

Full Stack Developer (Internship) Jan 2022 - May 2022
Binghamton University *New York, USA*

- Automated **Excel-to-MySQL** data migration using **Java Spring Boot** and **React.js**, reducing manual entry by **30%**.
- Designed a responsive, data-driven web solution for drug and disease information management using **Python**.
- Introduced a **PowerShell** setup tool to ease onboarding for both developers and non-technical users.
- Enhanced frontend **UI/UX** using **Bootstrap** and backend logic using **Node.js**.

Application Developer Analyst Aug 2018 - Jul 2021
Accenture *Mumbai*

- Maintained **60+** reusable UI components and templates using **HTML5**, **CSS3**, **Bootstrap**, **JavaScript**, and **jQuery**.
- Delivered a modular, scalable testing automation tool using **Angular 8**, enhancing developer productivity.
- Resolved various bugs rapidly, ensuring smooth deployment and consistent UI performance.
- Applied Agile and **SDLC** practices to deliver enterprise-grade software.

PROJECTS

- **Food Review Web App**
  Implemented a full-stack **MERN** application with **Redux**, **MongoDB**, and **Node.js** for user food reviews and ratings.
- **OCR for Handwritten Digits**
  Constructed an OCR web app using **KNN**, achieving **93%** accuracy and implementing a UI using **React**, **Redux**, **TypeScript**.
- **Obesity Analysis Dashboard**
  Developed an interactive data visualization platform using **MongoDB** aggregation pipeline and **Node.js** to assess health trends.

PUBLICATION

Resume Refinement System Using Semantic Analysis
International Journal of Innovative Science and Research Technology

- Created a resume analysis web app using **NLP** and **Python**, enhancing recruiter efficiency.

AWARDS & LEADERSHIP

- Smart India Hackathon 2017
- Creative Team Member – Alumni Committee 2016 - 2017
- Joint Creative Head – Student Council 2016
